

SUMMER INTERNSHIP PROGRAM

JUNE – AUGUST

APPLY ONLINE

ACCENTCONTROLS.COM

ACI's Summer Internship Program offers a paid opportunity to work in an environment that fosters real-life experiences, explores career options, and applies your education. You will be part of key management meetings and participate in meaningful projects.

Our goal is to provide a working environment that not only encourages creativity, but offers equality, diversity, mutual respect and productivity.

When traveling to job sites outside of North Kansas City, Mo., air travel, hotel, and rental car will be paid, and a per diem will be provided.

- Week 1** Introduction to Industrial/Conveyer Systems
- Week 2** PLC Programming and Networks (Write a basic conveyer program)
- Week 3** Emulation and In-house Testing
- Weeks 4-7** Job Shadow Program to include in-office drawing checks; design and program; HMI testing and product testing.

The above schedule is intended to describe the general nature and level of work to be performed. The schedule may be modified for various reasons (e.g., scheduling, man power, etc.). Interns may perform other duties as assigned.
